

## Rockwell Parts

Rockwell Parts - AxleTech International is a premier supplier in the world of specialty vehicle drive-train systems and parts together with off highway vehicles. The business prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their customers' expectations for service, technology, delivery and quality. They believe in working within an atmosphere which encourages the highest integrity with empowered teamwork, together with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and providing a safe environment for their staff to work in. Moreover, they have implemented many programs within the organization to help articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whichever questions or comments, because they are happy to promote and share this policy with a greater knowledge of their efforts. They are very dedicated to preserving and improving the natural world. AxleTech has an EHS program which not just protects the natural world but which even actively protects their staff and neighbors as well.

AxleTech specializes in the manufacture and designing of planetary axles utilized for both commercial and military applications, which can consist of anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider also. AxleTech specially designs axles to meet certain application demands. They have more than one thousand different axle specs within their present offering. With over one hundred years of experience and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in numerous commercial and military applications. They provide complete axle assemblies used for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have added details that could be found in the "ISAS" product selection.
