

Meritor Part

Meritor Parts - The Meritor Company is a premier international dealer built upon one hundred years of custom of quality and service. Meritor specializes in integrated systems with various modules and parts to the original machinery makers and aftermarket equipment within the industrial and transportation sectors.

Meritor values the wishes of all their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their global operations. Meritor begins with a philosophy which values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor promotes collaboration and innovation amongst a team of experienced experts.

By only employing future focused individuals, Meritor strongly thinks these top-caliber individuals will be able to rapidly get used to to changing surroundings and demonstrate the performance and commitment considered necessary to attain results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their employees various chances for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, suspension and braking systems meant for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their international engineering personnel.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located around the globe in 19 countries and in 5 different continents.

The supplier development network is specifically situated in order to support new business growth. Regional teams are supported by international quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who apply Six Sigma tools to business methods and implement lean methods.
