

Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts may be specifically marked to be used in hazardous locations. A marked truck denotes the design has met the minimum requirements of ANSI/UL 558 for engine powered lift trucks or ANSI/UL 583 for electric forklifts for the type of label placed.

The use for labels for lift lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance carrier and Fire Marshall for additional information about the permitted uses of industrial powered trucks in your application.

If the particular lift truck satisfies the outlined criteria, labels may be placed. A labeled lift truck would show the type of designation located on the nameplate and would have a correctly corresponding label placed.
